DETAILED ACTION

This is the sixth Office Action for serial number 10/011,852, Collapsible Support with Arms and Legs and Method for Using, filed on December 4, 2002. Claims 1-10, 12-19, 30-32, and 34-37 are pending.

Withdrawal of Finality

Applicant's request for reconsideration of the rejection of claims 1-10 and 35 of the last Office action is persuasive and, therefore, the finality of that action is withdrawn. Rejections based on Slusher follow.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 3-10 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 4,062,372 to Slusher. Regarding claims 1 and 3-10, Slusher discloses an extendable and retractable apparatus comprising: a body (11) including a longitudinal axis; a leg attachment assembly comprising a plurality of arms (45) attached to the body and extendable to an extended position that is substantially perpendicular to the longitudinal axis; an arm attachment assembly (21) operable to move the arms (45); a plurality of legs (31-33) attached to the body and extendable to an extended position by the leg attachment assembly, wherein the extended position includes the legs being at an acute angle relative to the longitudinal axis of the body, and wherein the legs are

operable to support the support in an upright position; a biasing member (23) linked to the arms and legs and operable to simultaneously move the arms and legs; and an actuating member (12) attached to the body and operable to move the arms and legs, wherein the arms and legs are retractable to a position substantially parallel to the longitudinal axis of the body.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2 and 35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Slusher in view of U.S. Patent 4,355,779 to Heled. Regarding claims 2 and 35, Slusher discloses the support as applied to claims 1 and 3-10 above, but does not disclose a locking mechanism. Heled discloses an extendable and retractable support comprising a locking mechanism (58) operable to retain a leg attachment assembly (31, 44) in an extended or collapsed position. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have modified the support of Slusher to include a locking mechanism engaged with the body (11) and contactable with the arm attachment assembly (21) because one would have been motivated to provide a means

for releasably securing the legs in the desired position (i.e. extended or retracted) as taught by Heled (col. 3, lines 34-38 and col. 4, lines 37-40).

Allowable Subject Matter

Claims 12-19, 30-32, 34, 36 and 37 are allowed.

The following is an examiner's statement of reasons for allowance: regarding claim 30, although the prior art of record discloses many of the limitations in the claim, it fails to further teach or suggest moving the arm ring and leg ring in the same direction to simultaneously extend the arms and legs to the extended position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see page 8 of response filed 3/22/04, response filed 7/22/04 and interview summary for 7/14/04 and 7/20/04, with respect to the rejection of claims 1-10 and 35 under Gray have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new grounds of rejection is made in view of Slusher.

Conclusion

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Naschica S. Morrison, whose telephone number is (703) 305-0228. If attempts to reach the examiner are unsuccessful, the examiner's supervisor, Leslie Braun can be reached at 703-308-2156.
